# DEVELON

## Continuous evolution, for better.

We trace our roots to 1937 as one of Korea's first large-scale machine plants. During that time, we have consistently delivered earth-moving equipment to build critical infrastructure for the betterment of communities, societies and the wider world.

**We are  
DEVELON.**

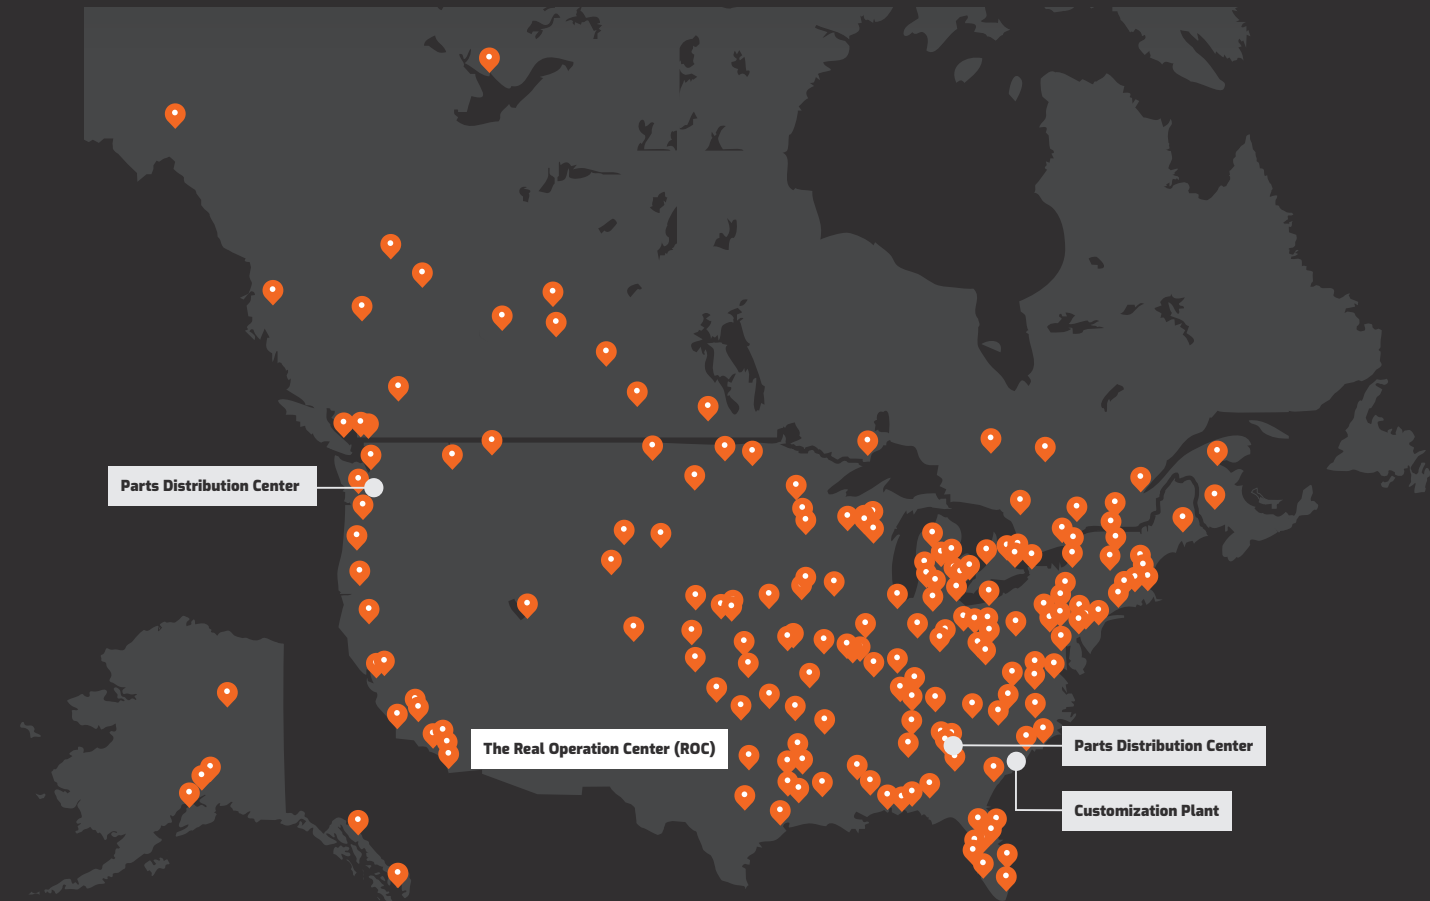

DEVELON is a bold name that reflects our core ambition to continue developing onward and leaving behind a positive footprint in our world. Moving forward, we will continue providing innovative products and solutions that advance the world we live in today.

# Dedicated to Your Success.

DEVELON helps solve your unique business challenges to advance the development of our world. We are Powered by Innovation, delivering a full lineup of durable equipment, outstanding value and comprehensive services from our expanding network of North American dealers.

**Strong Dealer Network**  
Our network of local dealers continues to grow across North America. These knowledgeable teams are dedicated to your success by offering responsive service, reliable parts and trusted advice.

**Parts Availability**  
Your dealer can offer more parts inventory and faster delivery — thanks to our two warehouses in Georgia and Washington.

**Customization Plant**  
A dedicated facility in Georgia tailors the equipment configuration and final machine assembly for faster delivery.

# MY DEVELON Fleet Management

**Free monitoring. No contract. No fees.**  
A standard feature on most DEVELON models, MY DEVELON fleet management makes it easy to remotely monitor and maintain your equipment. This powerful diagnostic tool monitors the health, location and productivity of your DEVELON equipment from a user-friendly mobile app and website.

Smart X-Care™ fleet tracking service offers continuous monitoring of your construction equipment telematics, alerting you and your dealer as needed.

# Premium Features Come Standard on DEVELON Equipment.

To compete and succeed you need equipment that helps you maximize job site productivity and the bottom line. DEVELON machines do both. To ensure a high return on investment, we add more premium features as standard equipment on every model.

These features are often options that come with an additional cost from other manufacturers. By including them as standard, DEVELON gives you a competitive edge — helping operators work more efficiently and improving safety during the longest workdays.

# Maximize Your Equipment Investment With DEVELON Attachments.

Versatile DEVELON equipment can use a variety of attachments to expand your capabilities on every job. Our attachments are built to DEVELON machine specifications for superior reliability and performance.

## Compact Track Loaders

**Angle Broom**  
A valuable attachment for sweeping and clearing debris, gravel, sand and waste from your construction site.

**Auger**  
Plays a crucial role in utility and infrastructure projects, efficiently boring holes to your desired depth and diameter.

**Power Rake**  
Highly effective for grading and leveling uneven terrain like lawns, driveways and construction sites.

**Hi-Vis Rail Pallet Fork**  
Efficiently transports and positions rails, sleepers, ballast and ties.

**Scrap Grapple**  
Designed to efficiently pick up and remove materials like concrete rubble, bricks and wood.

**Skeleton Grapple**  
Open sides, bottom and back to facilitate the versatile hauling of brush, logs and debris.

**Large-Capacity Root Grapple**  
Streamlines cleanup and sorting efforts on construction and demolition sites with efficient material handling features.

**Low-Profile Dirt Bucket**  
Perfect for digging trenches, leveling terrain and grading surfaces with accuracy.

**Utility Bucket**  
Robust design for handling dense and bulk materials with ease.

**Multi-Purpose Bucket**  
Ultimate 4-in-1 tool that excels at digging shallow trenches, removing soil and effortlessly backfilling excavated areas

**Open-Front Rotary Brush Cutter**  
Ideal for utility and right-of-way maintenance; adept at clearing vegetation (up to 8" in diameter cut capacity with the HD version) around power lines, pipelines and transportation corridors.

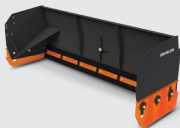

**Closed-Front Rotary Brush Cutter**  
Efficiently clears grass and brush (up to 4" diameter cut capacity), resulting in a consistent finished look.

**Snow Blower**  
Standard and heavy-duty options, both designed to tackle snow removal in tight or confined spaces with ease.

**Snow/Light-Material Bucket**  
Two options, standard and heavy-duty, that are engineered for efficient snow removal and versatile material handling tasks.

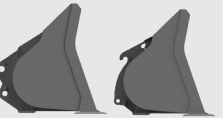

**Snow Pusher**  
Rubber-edge design to perfectly clear snow on roads, streets and highways, particularly in residential and urban areas.

## Wheel Loaders

**General-Purpose Bucket**  
Designed with a sloped bottom for maximum filling while retaining material and improving dump angle.

**Light-Material Bucket**  
Designed for material densities less than 2,000 lb./yd<sup>3</sup> (1185 kg/m<sup>3</sup>).

**Grapple Bucket**  
Optimized for land waste or recycling operations or land clearing.

**Aggregate Bucket**  
Designed with a flat bottom for an optimal cut into a pile to provide maximum filling and machine efficiency.

**Rock Bucket**  
Designed for heavy-duty digging applications.

**Pallet Fork**  
Fork design offers improved center of gravity for better load control and handling.

**Quick Coupler**  
Quickly change your non-hydraulic wheel loader attachments without leaving your seat.

## Crawler and Wheel Excavators

**Heavy-Duty Bucket**  
Built to match your digging demands with reinforced diamond-folded top section for added strength.

**Severe-Duty Bucket**  
Built for harsh digging applications with high-quality, abrasion-resistant material.

**Ditch-Cleaning Bucket**  
Available in standard and heavy-duty.

**Angle-Tilt Bucket**  
Bucket rotation tilts 45 degrees in either direction to enable cost-effective grading, sloping and land clearing.

**Hydraulic Quick Coupler**  
Easily switch a wide range of excavator attachments without leaving the cab.

**Thumb**  
Provides an easy-to-install solution. The DEVELON universal hydraulic clamp is available in a range of fixed widths and lengths.

**HB-Series Hydraulic Breaker**  
Break ground or concrete with ease. Engineered for long-lasting performance, this tool excels in punishing demolition tasks.

Mini Excavators

**Heavy-Duty Bucket**  
Available with pin- or quick-hitch-style top caps.

**Ditch-Cleaning Bucket**  
Available with pin- or quick-hitch-style top caps.

**Thumb**  
Installs quickly and easily due to thumb-ready arm and standard auxiliary hydraulics on the machine.

**Hydraulic Quick Coupler**  
Improves versatility for connecting a wide range of attachments without leaving the cab.

**Manual Quick-Hitch**  
Easily interfaced and connected with a wide variety of attachments with one simple, single-pin retention system.

Dozers

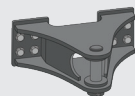

**Parallel 3-Shank Ripper Attachment**  
Includes a standard circuit and piping that makes it easy to add a 3-shank ripper attachment. Features parallel linkage that helps maintain a constant angle to the ground regardless of the height.

**Forestry Guard**  
Protects front visibility of the machine and cab by moving tree limbs away and over the cab.

DD100

DD130

**Towing Draw Bar Attachment**  
Makes it easy to use your dozer for towing other equipment around the job site.

Log Loaders

**Log Grapple**  
360-degree continuous rotation improves picking and placing and minimizes the need to move your machine.

Road Builders

**Heavy-Duty Bucket**  
Built to match your digging demands with reinforced diamond-folded top section for added strength.

**Hydraulic “Pin Grabber” Quick Coupler**  
Saves time when switching attachments.

**Severe-Duty Bucket**  
Built for harsh digging applications with high-quality, abrasion-resistant material.

**Thumb**  
Provides an easy-to-install solution. The DEVELON universal hydraulic clamp is available in a range of fixed widths and lengths.

**Ditch-Cleaning Bucket**  
Available in standard and heavy-duty.

Material Handlers

**Grapple**  
Matches your material handler's load ratings and hydraulics for the best possible performance.
