DEVELON

Continuous evolution, for better.

We trace our roots to 1937 as one of Korea's first large-scale machine plants. During that time, we have consistently delivered earth-moving equipment to build critical infrastructure for the betterment of communities, societies and the wider world.

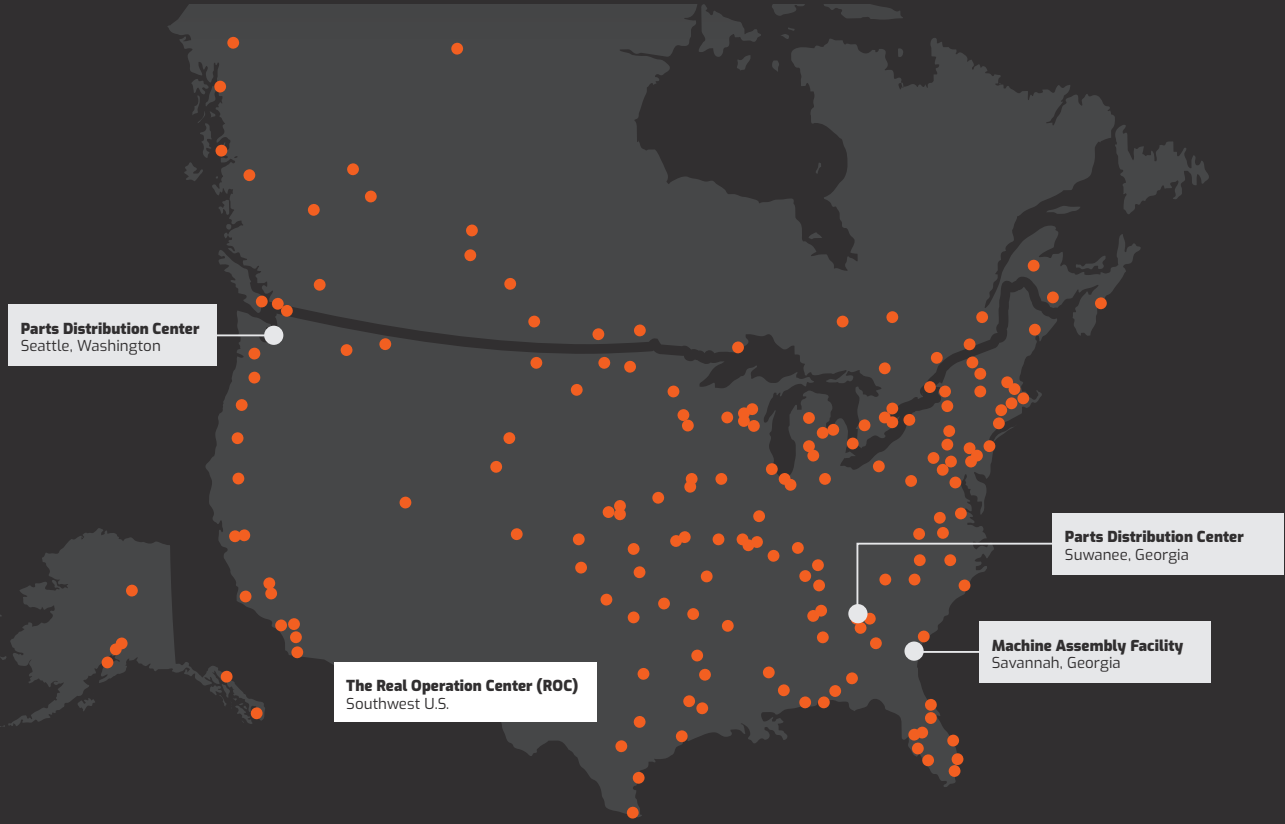

We are
DEVELON.

DEVELON is a bold name that reflects our core ambition to continue developing onward and leaving behind a positive footprint in our world. Moving forward, we will continue providing innovative products and solutions that advance the world we live in today.

Dedicated to Your Success.

DEVELON helps solve your unique business challenges to advance the development of our world. We are Powered by Innovation, delivering a full lineup of durable equipment, outstanding value and comprehensive services from our expanding network of North American dealers.

Strong Dealer Network
Our network of local dealers continues to grow across North America. These knowledgeable teams are dedicated to your success by offering responsive service, reliable parts and trusted advice.

Parts Availability
With two DEVELON-exclusive parts distribution centers in Georgia and Washington state, our dealers provide more parts inventory and faster delivery – including less than two-day delivery on a majority of genuine DEVELON parts.

Machine Assembly Facility
A dedicated facility in Savannah, Georgia, tailors the equipment configuration and final machine assembly for faster delivery.

DEVELON Fleet Management

Free monitoring. No contract. No fees.
A standard feature on most DEVELON models, DEVELON Fleet Management makes it easy to remotely monitor and maintain your equipment. This powerful diagnostic tool monitors the health, location and productivity of your DEVELON equipment from a user-friendly mobile app and website.

SMART X-CARE™

Smart X-Care™ fleet tracking service offers continuous monitoring of your construction equipment telematics, alerting you and your dealer as needed.

Premium Features Come Standard on DEVELON Equipment.

To compete and succeed you need equipment that helps you maximize job site productivity and the bottom line. DEVELON machines do both. To ensure a high return on investment, we add more premium features as standard equipment on every model.

These features are often options that come with an additional cost from other manufacturers. By including them as standard, DEVELON gives you a competitive edge – helping operators work more efficiently and improving safety during the longest workdays.

Maximize Your Equipment Investment With DEVELON Attachments.

Versatile DEVELON equipment can use a variety of attachments to expand your capabilities on every job. Our attachments are built to DEVELON machine specifications for superior reliability and performance.

Wheel Loaders

General Purpose Bucket

Designed with a sloped bottom for maximum filling while retaining material and improving dump angle.

Rock Bucket

Designed for heavy-duty digging applications.

Light Material Bucket

Designed for material densities less than 2,000 lb./yd³ (1185 kg/m³).

Pallet Fork

Fork design offers improved center of gravity for better load control and handling.

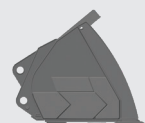

Grapple Bucket

Optimized for land waste or recycling operations or land clearing.

Quick Coupler

Quickly change your non-hydraulic wheel loader attachments without leaving your seat.

Aggregate Bucket

Designed with a flat bottom for an optimal cut into a pile to provide maximum filling and machine efficiency.

Crawler and Wheel Excavators

Heavy-Duty Bucket

Built to match your digging demands with reinforced diamond-folded top section for added strength.

Angle-Tilt Bucket

Bucket rotation tilts 45 degrees in either direction to enable cost-effective grading, sloping and land clearing.

Severe-Duty Bucket

Built for harsh digging applications with high-quality, abrasion-resistant material.

Hydraulic Quick Coupler

Easily switch a wide range of excavator attachments without leaving the cab.

Ditch-Cleaning Bucket

Available in standard and heavy-duty.

Thumb

Provides an easy-to-install solution. The DEVELON universal hydraulic clamp is available in a range of fixed widths and lengths.

Mini Excavators

Heavy-Duty Bucket

Available with pin- or quick-hitch-style top caps.

Ditch-Cleaning Bucket

Available with pin- or quick-hitch-style top caps.

Thumb

Installs quickly and easily due to thumb-ready arm and standard auxiliary hydraulics on the machine.

Hydraulic Quick Coupler

Improves versatility for connecting a wide range of attachments without leaving the cab.

Manual Quick-Hitch

Easily interfaced and connected with a wide variety of attachments with one simple, single-pin retention system.

Dozer

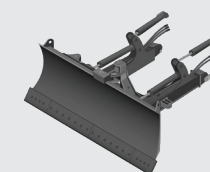

Parallel 3-Shank Ripper Attachment

Features parallel linkage that helps maintain a constant angle to the ground regardless of the height.

Towing Draw Bar Attachment

Makes it easy to use your dozer for towing other equipment around the job site.

Two Blade Options

Choose from a standard (XL) blade or a low-ground pressure (LGP) configuration. See model spec sheets for blade capacity details.

Log Loaders

Log Grapple

360-degree continuous rotation improves picking and placing and minimizes the need to move your machine.

Road Builders

Hydraulic "Pin Grabber" Quick Coupler

Saves time when switching attachments.

Wedge Lock Quick Coupler

Excellent option that allows attachment versatility.

Material Handlers

Grapple

Matches your material handler's load ratings and hydraulics for the best possible performance.
